

HIPON International Conference & ICT Workshop
“IMPROVING PATHOLOGY TEACHING”
Scientific Coordinator: Assoc. Prof. Dr. Andreas C. Lazaris

HIPON International Conference & ICT Workshop

“IMPROVING PATHOLOGY TEACHING”

October 22nd – 23rd, 2015

Athens, Greece

2nd Circular Announcement

Thank you for responding to the 1st Circular Announcement of the International Conference & ICT Workshop: “**Improving Pathology Teaching**”, which will be held on October 22nd – 23rd, 2015, in Athens. The two events are organized in the context of the European funded Project entitled HIPON – “ICT e-modules on HistoPathology: a valuable online tool for students, researchers and professionals” (www.hiponproject.eu).

The 2nd Circular Announcement includes information regarding the publication of the events’ official program and practical information for the participants, as well as the official poster of the double event.

Program

The program of the International Conference and ICT Workshop is finalized. The main topics of the International Conference are:

- Pathology Teaching
- Modern and ICT education strategies
- Quality assessment in education
- Technology affordances and limitations

The International Conference will be divided into three sessions. The first session will be related to modern teaching approaches in Pathology based on experiential learning, as implemented in HIPON lifelong learning program; representatives of the HIPON project educational partners and, more specifically, from the University of Athens, the Radboud University Nijmegen Medical Centre and the University of Zagreb School of Medicine will participate.

In the second session, partners from the Centre for the Advancement of Research and Development in Educational Technology and the Ss. Cyril and Methodius University will refer

HIPON International Conference & ICT Workshop “IMPROVING PATHOLOGY TEACHING” Scientific Coordinator: Assoc. Prof. Dr. Andreas C. Lazaris

to the limitations and possibilities of ICT in learning and educational methods. Moreover, in this session, the results from the pilot testing phase of HIPON in Greece will be presented.

However, the **third and final session** will concentrate on oral presentations from the public, regarding the main topics of the conference.

You may see the International Conference's program by clicking here www.hiponproject.eu/en/conference/2015-06-08-06-21-18/conference

In the **1st day** of the two-day ICT Workshop, participants will have the opportunity to get familiar with the use of HIPON e-learning platform.

During the **2nd day**, the participants will be informed about the various courses offered by the platform (*General pathology and Systemic pathology*). At the end of the workshop a small conversation will take place in which representatives of the pilot testing users will have the ability to share their experience regarding the HIPON platform and the prospects of its improvement.

You may see the Workshop's program by clicking here www.hiponproject.eu/en/conference/2015-06-08-06-21-18/workshop

Practical Information

The **Practical Information Guide** contains information on how to arrive to the locations of the International Conference & the ICT Workshop, the public transportation from and to the airport, as well as some other useful tourist tips.

You may download the Practical Information Guide from the Conference & Workshop's webpage, by clicking here http://hiponproject.eu/files/Practical_Information_Guide.pdf

Poster

The official poster of the HIPON International Conference and ICT Workshop has been successfully released during July.

You may download the poster from the Conference & Workshop's webpage, by clicking here http://hiponproject.eu/images/Conference-Workshop/Conference_poster.pdf
